Dear Michelle:

Thank you for providing the USEPA's comments on the Preliminary (30%) Design Report for OU3. In review of the comments and to discuss how best the Agency's request to have soil samples collected (e.g., from "hot" soil borings with analytical results to be reviewed prior to securing sections or portions of the thermal conductive heaters as demonstration of satisfactory achievement of the RAO of 1 mg/kg TCE in soil), we feel it would be beneficial to have a discussion (e.g., as to how we might be able to accommodate this in the spacing of heaters for drill rig access) as best to accommodate this for incorporation into the Pre-Final (90%) Design.

Accordingly, a WebEx conference is proposed for one of the following times:

Thu (Dec 6) in the afternoon;

Fri (Dec 7) AM or PM; or  
Any day the week of Dec 10 to Dec 14.

Please let us know what may work best for you and your staff and we will send out an appointment reminder with dial-in information.

Sincerely,  
Bruce

Hi, Bruce-

Attached please find EPA's comments on the 30% Design Report for OU3. Please let me know if you have any questions or want to arrange a call to discuss. The week of Dec. 3rd would be good for a call.

Best,  
Michelle-
